

Meadowbrook Manor

Residential Care Home

Residential, Respite and Early Dementia Care

High quality,
experienced care
services with qualified
& professional care staff

Our Services:

Residential Care

This type of care is for those aged 65+ needing support with the activities of daily living. Many residents choose to live with us because they don't want to live alone or shoulder the burden of maintaining their own home.

Respite Care

This care is for people who wish to stay with us on a short term basis from a couple of nights to several months. Residents may need additional support when recovering from an illness or operation or their usual carer may need a well-earned rest.

Early Dementia Care

Whether a resident requires early dementia care or end of life care; Meadowbrook has the expertise to vastly improve a sufferer's quality of life with highly-skilled dementia care tailored to the needs of the resident.

Helping individuals live a fulfilling, happier and healthier life:

24/7 friendly professional care

Wide variety of recreational/
social pursuits on offer

Communal and outdoor areas

Delicious, nutritious
home-cooked meals

Peace of mind for
residents and relatives

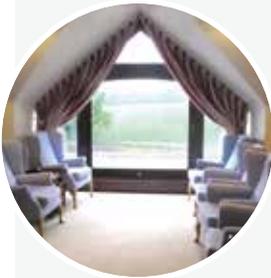

We realise the importance of each resident having their own private space that feels like home

Accommodation:

Care Rooms

Residents may have their rooms suited to their individual tastes if they wish and this can include bringing their own furniture, TV and treasured possessions. Phone points and en-suite facilities are standard. Long gone are the gloomy residential homes of the past!

Communal Spaces

We have a range of activities on offer including in-house entertainment and trips to the seaside and local garden centre.

You will find a communal living room with lovely views overlooking green fields, a cosy living room with a fire, cinema area and we even have a bar!

Outdoor Spaces

Whether it's to enjoy a coffee alone or with friends, watch (and feed) the birds or just admire the greenery, our staff are more than happy to assist you with mobility so that you can enjoy a little of the great outdoors in our gardens.

Facilities & Services:

Own GP if required

Own furniture if required

Chiropodist

We offer a wide variety of delicious and nutritionally balanced meals, prepared in-house by our talented chefs

Dining:

Our large dining room with its stunning skylight makes communal dining a social experience and we also have a resident's kitchenette where drinks/snacks can be prepared to help retain a feeling of independence. We even have a resident's bar and if you are a visitor, you will always receive a cup of tea and a friendly welcome.

Our care home dining policy supports specific diets including vegetarian, gluten free, diabetic, fortified and soft food diets for those with swallowing issues. Your dietary needs will be recorded in your care plan and we welcome active input to help create our menus.

We enjoy making mealtimes fun and throughout the year we combine food with events such as theme nights, resident birthdays and of course – Christmas is always a special dining experience for all.
